### **Second IKN Pendulum Cooler® for Attock Cement**

On February 17th 2016 the management of Attock Cement Pakistan Limited and IKN GmbH shook hands on the supply of another latest generation IKN Pendulum Cooler®.

The cooler with a capacity of 4.000 tpd will be supplied for Attock's new line 3. This agreement follows shortly after the order for a new IKN static inlet (KIDS®) for line 1. Both orders show the confidence and trust that Attock Cement has put in IKN based on the experience with the IKN Pendulum Cooler® in line 2 which is in operation since 2006.
